Achievements

- Left school with an A* in IT Computer Science coursework.
- Awarded "star student" for IT in school 2 years running.
- Built and sold multiple standalone websites.
- Created extensions for content management systems that are now used by more than 5,240 people.
- Became a proficient swimmer at the 8 years old (5 years before many my age).
- Awarded the "Highest Achiever" plaque for my A in Computer Science (GCSE), which my name was then engraved on.
- Gained a full UK drivers license at 17.

Why Should You Hire Me?

The answer to this question is simple. Firstly, I'm a newly qualified web developer who's eager to learn and wants work with experienced developers, and teams that I can bring unique skills to.

Secondly, while still being young I have a lot of experience in a wide variety of development languages and other areas. For example, Adobe Photoshop and CMS systems like WordPress.

Relevant Work Experience

Web Development Consultant

Freelance

2012 – Present Day

- Created responsive web designs both for clients and personal projects.
- Manipulated CMS systems such as WordPress and WHMCS to function for clients purposes.
- Investigated and fixed various issues in established CMS systems and custom coded projects.
- Created many extensions for established CMS systems to further enhance their functionality for clients.
